

Final report conclusion

Group 11:

Ahmed Al-Ganad – 528820

Aryan Abbasgholitabaromran - 540346

Benjamin Iversen - 530791

Rafael Balan - 527065

Saif Ba Madhaf - 527028

Yusuf Isapaşa - 526352

The project was successful overall, with all components functioning as intended except for the GPS module, which encountered operational issues and was addressed immediately by adding a functionality in the SmartGuard application to detect the location using the mobile phone. The rest of the system performed reliably, meeting the requirements and demonstrating the expected functionality. We can safely say that the team successfully achieved the project objectives project.
